HISTORY

The International Thermal Days (JITH) will celebrate their 19th anniversary in Tangier, Morocco. They have been organized every two years since 1983 (in Monastir, Tunisia). The JITH have already been held in Algeria, Belgium, Egypt, France, Morocco, and Tunisia.

The main objective of the JITH is to promote cooperation between researchers and scientists from these countries and to give young researchers the opportunity to present their recent and/or ongoing research work.

OBJECTIVES

The JITHs propose to:

- Review the status of research in the field of heat transfer.
- Contribute to the dissemination and valorization of the research results for applications in the various fields (industry, agriculture, transportation, buildings, etc.).
- Foster relationships between researchers and stakeholders working in this field.
- Organize specialized topic sessions.

TOPICS

Topic 1

Fundamental Developments in Heat Transfer

Topic 2

Renewable Energies and Thermal Energy Storage

Topic 3

Energy Efficiency in Industry, Building, Transportation and Agriculture

Special Session:

« Hybrid Energy Systems »

ORGANIZATION

The JITH will be organized in sessions, each one being introduced by a plenary conference. The selected communications, classified by topic, will be the subject of either an oral presentation or a poster and will be supplied on a USB key. Technical and tourist visits will be organized and offered to participants and accompanying persons.
